

Elgin Alley Cats Mission Statement

Our group is called Elgin Alley Cats. We are a non-profit group of volunteers that meets every other month on the second Saturday. Our purpose is to educate and help out the people of the Elgin area with the trap-neuter-return feral and stray cat program. We loan out traps to people that want to trap the feral cats on their property or we will help them with the trapping. The cats are taken to Austin Humane Society where they are spayed or neutered and vaccinated for rabies for \$20.00. The cats are then returned to their original colonies or homes. Our main goal is to reduce the feral and stray cat population in Elgin.

Another service we provide is to feed some of the feral colonies around Elgin. There are several members of our group that feed these cats (after they have been spayed and neutered and vaccinated).
